Motorcycle, ATV, Scooter > Petrol 4T

Gravity® Ride MOTO 4T, our pinnacle 10W-40, JASO MA2, fully synthetic 4-stroke engine oil, boasts cutting edge low friction FluXion® Ester Technology for heightened power and torque. Tailored for performance, high-revving 4-stroke and v-type engines, air-cooled / water-cooled, scooters and ATV.

Its robust formulation supports dilution challenges, including exposure to ethanol, E10, E85, methanol, nitromethane, cetane, octane boosters and nitrous oxide.

Gravity® Ride is designed for configurations using an engine/transmission lubrication system focusing on consistent clutch feel and launch coefficients. The ultimate 4-stroke performance engine oil for riders looking to get more out of their motorcycle.

FluXion[®]
ESTER TECHNOLOGY

Benefits

- ✓ Outstanding shear stability and endurance
- ✓ Excellent cleaning properties for long-term and optimum performance
- ✓ Constant high friction form for wet clutch performance
- ✓ Outstanding lubrication properties throughout the entire service life
- ✓ Minimal transmission and engine wear
- ✓ Excellent oxidation resistance and valve train wear protection
- ✓ Excellent heat management and dispersion for stable power delivery
- ✓ Suitable for use in engines fitted with oil-immersed 'wet' clutches.

Typical characteristics

		ASTM
Kinematic Viscosity @104°F/40°C	95.4 cSt	D-7042
Kinematic Viscosity @212°F/100°C	14.1 cSt	D-7042
Viscosity Index	152	D-2270
SP. Gravity @15°C/60°F	0.865 g/cm ³	D-4052
Flash Point (min/max)	230°C / -36°C	D-92 / D-97
Total Base Number	6 mg KOH/g	D-2896
Cold Cranking Simulator	<6800 (-25°C) m.Pa.S	D-5293
